*Math for All: Universal Design for Learning in a
Standards-Based Classroom*

[One Size Doesn't Fit All](#)

[The Dinner Party Analogy](#)

[Teaching to the Average vs. DI vs. UDL](#)

“Teaching and learning are correlative or corresponding processes, as much so as selling and buying. One might as well say he has sold when no one has bought, as to say that he has taught when no one has learned.” -John Dewey

UDL is a Standards-Based Curriculum Design
Standards is NOT the Same as Standardization

“I would rather teach in an accessible way to an inaccessible test, than in an inaccessible way for an inaccessible test.” - Jon Mundorf

Multiple Means of Engagement - **WHY**

Multiple Means of Representation - **WHAT**

Multiple Means of Action & Expression - **HOW**

“Excellence in mathematics education requires equity - high expectations and strong support for all students.” -NCTM, 2000

Think About It:

- How does the classroom differ if the goal is mastery of learning as opposed to mastery of knowledge?
- How do our actions differ if we are creating expert learners versus compliant children?

*“When a flower doesn’t bloom you fix the environment in which it grows, not the flower.”
-Alexander Den Heijer*

Additional Notes:

Universal Design for Learning = Learning for All

It can be a tremendous challenge to ensure that you are meeting the needs of every student in your classroom, school, or district.

ABOUT US

At Growing Minds Consulting, we empower educators to reach and teach all learners. Using the principles of Universal Design for Learning (UDL) in applying a systemic and practical approach to instructional planning, we ensure learning environments and materials are intentionally inclusive and that success is attainable across the full spectrum of developmental stages of school-age growing minds.

SERVICES INCLUDE

- Actionable Professional Learning
- School and District Consultation
- Keynote Presentations

Call or email today to set up your free 15 minute consultation to see how we can help you meet the needs of all your learners.
